

Every kind of roof, designed, fabricated and fitted by one team.

Residential · Commercial · Industrial · Agricultural

About Us

Top Shell Roof designs, fabricates and installs every kind of roof, from residential sheds to large industrial structures. We work with quality materials, precise fabrication and clean site execution, so the roof we put up is the last one you will think about for years. Based in Chennai, working across South India.

- Insulated / PUF Panel Roofing
- Guttering & Rainwater Systems
- Industrial & Warehouse Roofing
- Tile & Shingle Roofing
- Roof Repairs & Leak Sealing
- Car Park & Awning Sheds

Why Choose Us

Quality Materials

Graded steel sheets, corrosion-resistant coatings and branded fasteners on every job. No substitutions, no shortcuts.

Durable Build

Correct slope, sealed laps and properly engineered support. Roofs that hold through heavy rain, heat and wind.

Trusted Work

Straight pricing, committed timelines and a clean site at handover. Most of our work comes from referrals.

How We Work

1

Site Visit

We measure the span, check the existing structure and understand what you need.

2

Quotation

A clear, itemised quote covering material grade, quantity and labour, with no hidden additions.

3

Fabrication

Trusses and supports fabricated to the approved drawing and delivered to site.

4

Installation

Sheeting, sealing and finishing by our own crew, with safety gear and site discipline.

5

Handover

Final walkthrough, leak check and a cleared site before we call the job done.

Our Work

GET A QUOTE

Tell us the span. We'll tell you the price.

Site visits and quotations are free of charge.
